ORGANIZATIONS

Midramo consulting company, Data analytics training

November 2024 – February 2025 | Berger Lagos, Nigeria.

I had a wonderful time developing my skill on Data analysis, through the enlightening training program. From the goal of gathering and collecting data, cleaning and analyzing it, to visualizing and giving a comprehensive report about it. I also had an opportunity to network with other people with like-minds and build a team in a bid to solve problems relating to analyzing data. It was a great training and I am proud to be part of it.
